

How to Explain to Your Kids

The Republic Of United Skies & World Fly Coin

A simple way to introduce
your child's **brain**
to **big** and **complex** ideas...
in a **fun** and **easy** way!

Hi little travelers!

The Republic of United Skies

is like a big magical
country up in the sky!
It was born in **2024**.

It helps all the countries in the world
and all the people work together
and be friends, for the **good**
of **everyone** on Earth.

It does this thanks to:

-  The special **Constitution** of United Skies
-  The smart **WFN Software** (Software means a special computer program that tells machines what to do) and the **WFN App**

World Fly Coin (WFC)

And the company
WFN Software

In simple words...
it's the place where flying cars,
airplanes and everything that flies
can travel together **safely**
and **happily**!

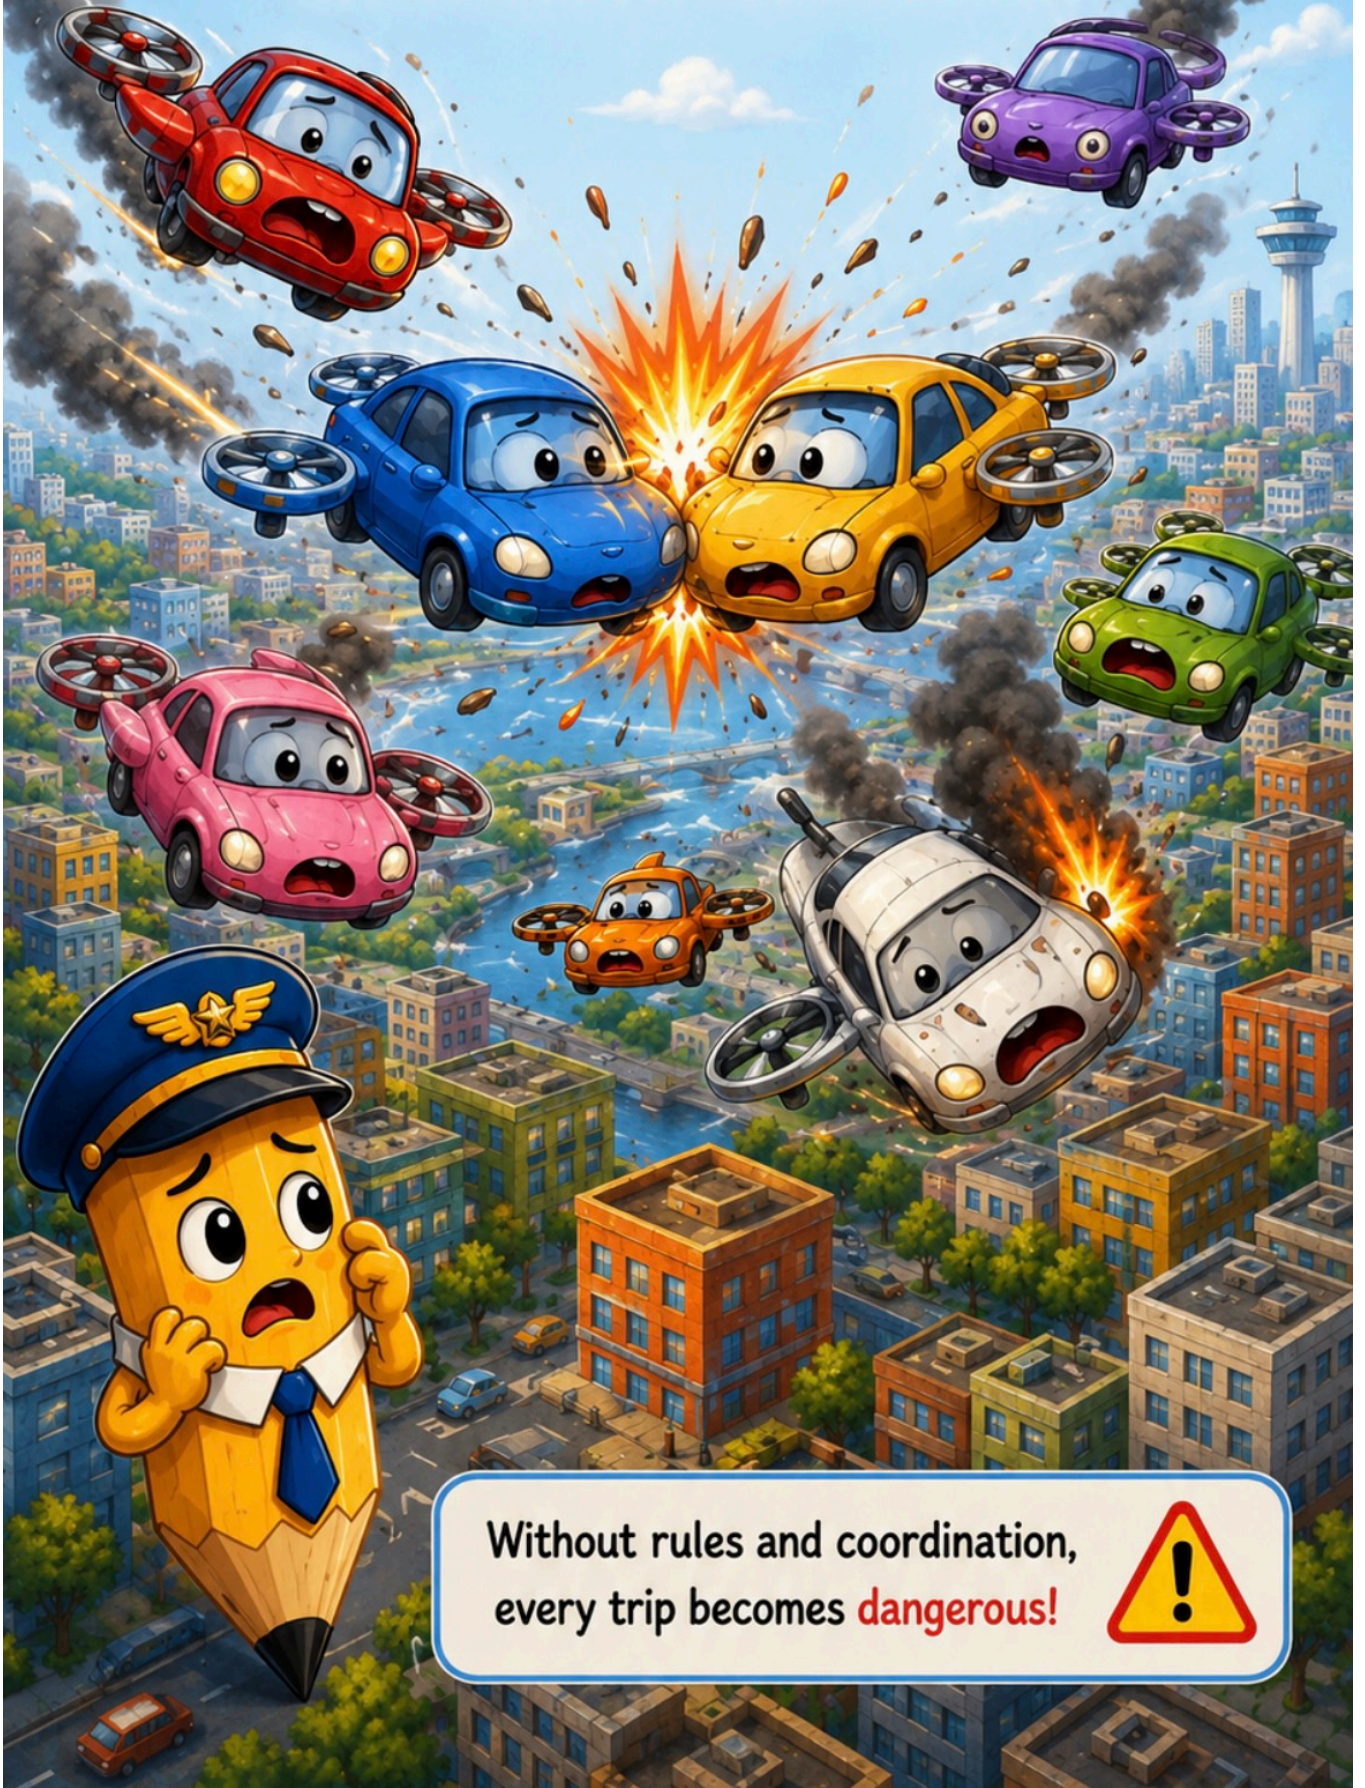

Now I'll take a step back
and show you how
all of this works!

The Problem

Imagine a city with **no traffic lights**
and **no rules** at all...

Oh no! All the flying cars would
crash into each other! **Boom boom boom!**

Without rules and coordination,
every trip becomes **dangerous!**

Building flying cars
was **hard**...
but the hardest part
was making them all
fly together without
crashing!

That's why the
great Founder started
writing a super special
software

(Software is like a smart
set of instructions that
tells computers and
flying cars what to do).

He created the
rules of the sky and
made everything
possible. **Yay!**

So many places to go...
but only one
smart app:

WFN App!

Just **one click** and
you can book your
flying car (it's called
iFLY) and fly
wherever you want.

So cool!

One app. **One click.** Endless adventures!

Flying cars needed
a **fun** and **safe**
way to **pay**
for their trips.
That's how
World Fly Coin
(\$WFC) was born!
It's the **first**
special digital money
made just for
flying cars, **airplanes**
and even
space adventures!

Did you know...?
